\* Dfi-s1: crude untreated; Cfi-s1: if it is lacquered / oiled on site

### Important information

Classification according to EN 13501-1 and EN 14342 : 2013 (CWFT)

- Classification C<sub>fl</sub>-s1 only applies when installing on non-flammable class A1<sub>fl</sub> and A2<sub>fl</sub> bases, with a raw density of at least 1'350 kg/m<sup>3</sup>.
- Classification  $C_{\rm fl}\mbox{-}s1$  only applies if bonding with MS35 or equivalent.
- Certificates are only valid for the condition of the product at the time of delivery, without the addition of any maintenance and care products. etc.
